How to get your school started?

2. Create and manage your course:

- Fill out the course form

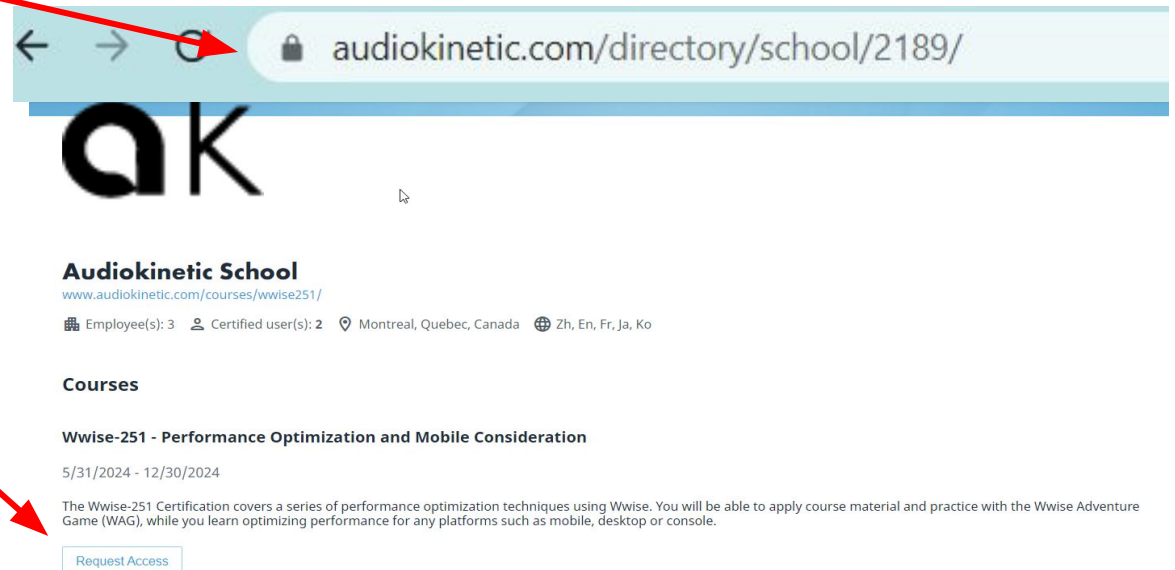

The screenshot shows the 'Organizations' section at the top with a dropdown menu set to 'Montana State University - School of Music' and a 'Create new organization' button. Below this is the 'Courses' section, which includes a sidebar with links for General, Documents, Users, Courses (highlighted), and Subscriptions. The main area displays a table with columns for Name, Status, and Wwise License Expiration. A red arrow points from the 'Fill out the course form' instruction to the 'Register a Course' button in the Courses section.

Name	Status	Wwise License Expiration
MUST 382 - Interdisciplinary Projects II - Video Game Sound De	Active	2024-07-31

3. Share your school page link with your students

- Your students will have to request access to the the course to have a Wwise license key

 **Make sure to approve their requests in the *Project Members* section of your account!**

The screenshot shows a web browser with the URL 'audiokinetic.com/directory/school/2189/'. The page features the Audiokinetic logo and the title 'Audiokinetic School'. It lists school details: 'Employee(s): 3', 'Certified user(s): 2', 'Montreal, Quebec, Canada', and 'Zh, En, Fr, Ja, Ko'. Under the 'Courses' section, it lists 'Wwise-251 - Performance Optimization and Mobile Consideration' with dates '5/31/2024 - 12/30/2024'. A description follows: 'The Wwise-251 Certification covers a series of performance optimization techniques using Wwise. You will be able to apply course material and practice with the Wwise Adventure Game (WAG), while you learn optimizing performance for any platforms such as mobile, desktop or console.' A red arrow points from the 'Share your school page link with your students' instruction to the browser's address bar. Another red arrow points from the 'Make sure to approve their requests...' instruction to the 'Request Access' button at the bottom of the course description.

9 lessons, 9 quizzes

covers everything about
the Wwise Unity
Integration using WAG

Free Wwise learning material

Wwise Video Tutorials

a series of educational how-to-videos that complement the Wwise-101 and Wwise-201 Certifications' learning material. These videos are a great resource for putting what you learn into practice, or for quickly reviewing particular areas of Wwise you're looking to brush up on.

Wwise samples

Samples are a great resource for exploring Wwise through practical examples

Cube :

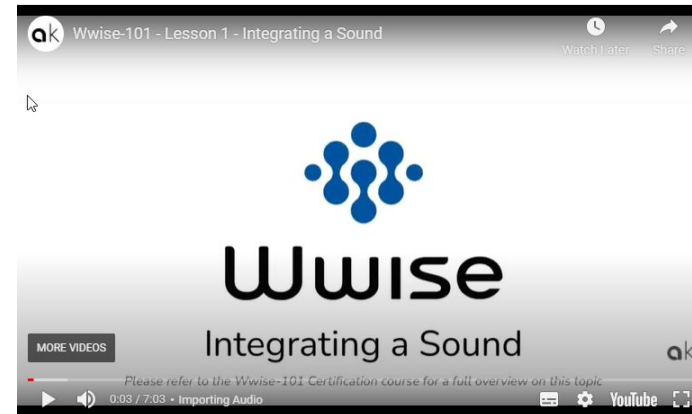

This sample comes with C++ source code and a Wwise project, and can be used alongside the Wwise 101 and 201 certifications learning content

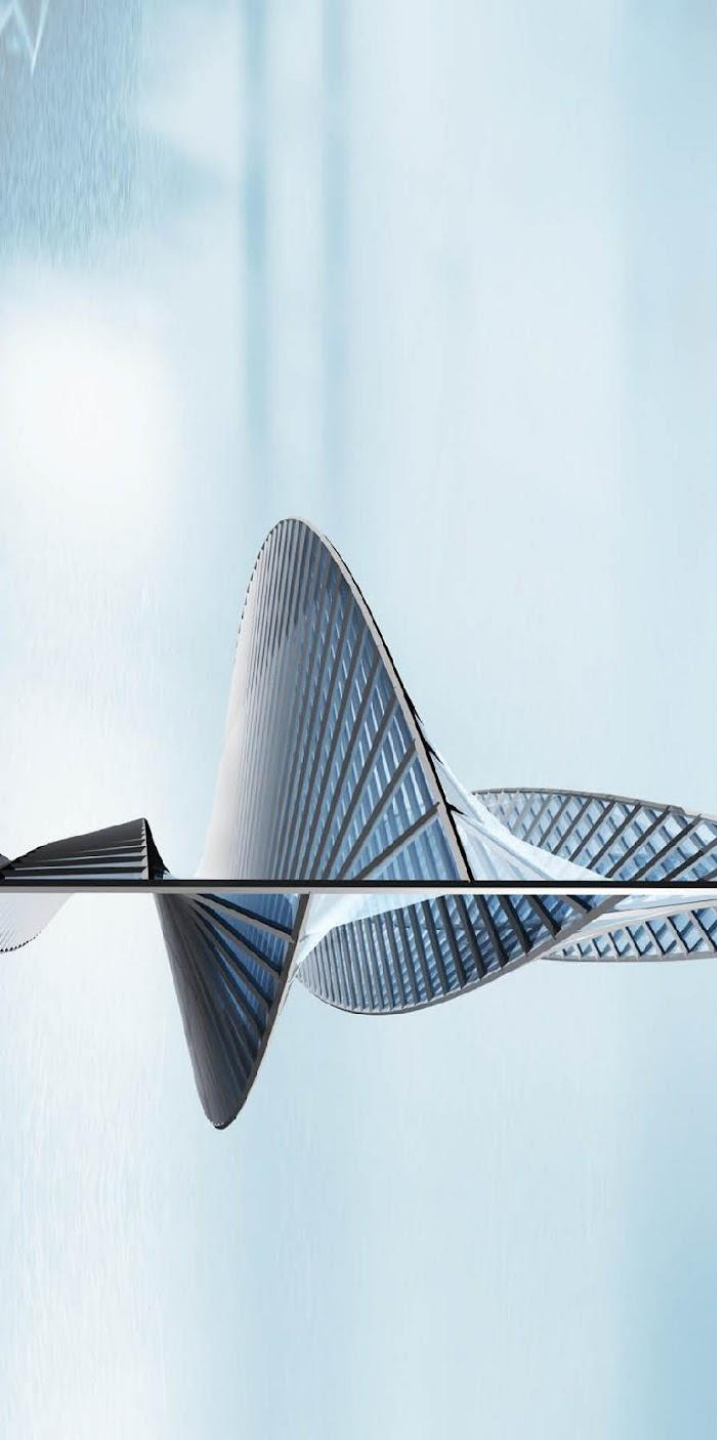

Wwise Adventure game:

WAG is open-source and comes with its complete Wwise and Unity projects. As such, it's a great playground to learn and experiment with the Wwise integration for Unity (W-301)

Wwise Audio Lab:

This sample is designed for experimenting with spatial audio features

Wwise Instructor Program

A **4-day** session focused on instructional techniques and a deeper understanding of Wwise as it relates to the Wwise–101 learning material. Wwise-101 certification is a requirement for this program.

Cost: \$1550 USD

A futuristic scene with a metallic figure in a cape, glowing blue lines, and a large white circle on a blue background. The figure is positioned on the left, partially obscured by a large white circle. The background is a deep blue with glowing blue lines and a large, bright, hazy light source on the right.

Thank you
